

In the specification:

Page 6, delete the paragraph in lines 1-4 and replace with the following:

A hand power tool 10 shown from the front in Fig. 1 is designed as an electrically operable top spindle molder, which comprises a housing 12 that at the front has a toggle switch 14 for switching it on and off, and from whose lower free end 11 a rotating tool bit 15 for cutting machining of workpieces protrudes.
